

# Wireless Public Address Systems

**Just as clear at the back of the Auditorium as it is in the front**

Our simple to use wired and wireless PA systems enhance communication in any school situation and never require the know-how of an audio expert. Whether an in-service presenter needs wireless amplification for a hands-free presentation, or a principal needs a way to cut through the noise of 1000 wiggly students during an assembly — **Califone delivers the clearly audible products you need.**

**Register your products online for warranty coverage**

## PowerPro

For those who want the advantages of a wireless PA system without the effort and intricacies associated with more complicated gear, the **PowerPro is the first portable audio system to boast a wireless powered companion speaker** with the push of a button. A single PowerPro with its built-in batteries delivers your message anywhere to 1,000 people - perfect for auditoriums, gyms, outdoor events, houses of worship and emergency situations.

## Designed for Educators Who need Flexible Audio Support

Installed or portable, wired or wireless — covering indoor or outdoor functions — our PresentationPro PAs are as simple to use as they are powerful. And for covering larger venues, a wireless PresentationPro can also be used with the even larger PowerPro.

### PresentationPro+UHF

The PA300 is the perfect wired or wireless audio support for teachers and corporate presenters who need a flexible and simple to use sound system. Whether in a classroom, on stage or outside, it provides audio support with connecting iPods, LCD projectors, whiteboards, multimedia players, DVD/VCRs and computers.

1. Multi-use portability for classrooms, auditoriums, meeting room installations, outdoor playground activities, corporate "road warriors" and athletic events with its built-in handle
2. Accepts one wireless and two wired mics (XLR and 1/4" jacks) at the same time
3. 16 channel UHF mic receiver
4. Line output to additional wired speakers for larger presentations
5. Connects with computers or microphones through two inputs for more professional sounding productions
6. LED lights on front give assurance with visual confirmation of power, signal and reception
7. Rugged brass sunburst teeth for worry-free mounting

# Because Every Presentation Deserves to be Heard

Portable audio means flexibility and ease of use for any type of situation, which is why **our wireless UHF mics can be used with both of our PowerPro and PresentationPro PA systems**. Califone wired microphones are equally powerful and reliable—which is especially critical on Back-to-School nights, PTO events, assemblies and other important high-profile occasions.

- 150' wireless reception range from any PA-916 or PA300+UHF wireless mic

**R-16**.....\$180

## Small, but Mighty

When you need less than a full-scale PA System (but more than a strained voice), Califone delivers what you need—a compact wireless or wired solution. Without a connecting power cords and mic cables, presenters have the mobility to go from the blackboard to a desk to the science experiment bubbling in the back of the room or maybe a soft-voiced teacher needs just a little boost in class.

## Two Choices of VoiceSavers

### VoiceSaver 282

- The perfect solution for strained voices leading classes or groups
- Supports those needing increased voice projection for day long presentations or staff training
- Headset mic gives hands-free mobility

**PA-282** .....\$125

*For groups up to 25 people*

or

*Groups up to 50 people*
