

CEILING TILE SUPPORTS

**Replaces ordinary Ceiling Plates
Less Expensive to Install**

Watch the Demo

Now there is no need to purchase a separate Ceiling Tile Plate when used with any of our Plenum Rated Boxes*

Ceiling Tile Supports
NB-CTSSPB

Standard Plenum Box with
NB-CTSSPB Ceiling Tile

Ceiling Tile Supports For
Extra Large 2U Plenum
NB-CTSELB

Extra Size Plenum Equipment Box
with NB-CTSELB Ceiling Tile

•Spans a Standard 2 ft Ceiling Grid

(When used with our Plenum Boxes)

FASTER SIMPLER INSTALLATION

Now the AC Receptacle is hidden inside the Plenum Box and all Cables including the Flex Cable to the Projector are run inside the Projector's Pole

The Ceiling Tile Supports are attached in seconds to any of the Plenum Boxes with the supplied (6) Screws

Close Up of Ceiling Tile Support hooked on to the Ceiling Grid

A QUICKER, TIDIER AND LESS EXPENSIVE INSTALLATION METHOD

When installing any of our Plenum Equipment Boxes with our new Ceiling Tile Supports. These eliminate the need to use ordinary Ceiling Tile Plates such as a Chief CMA 440® as they add unnecessary Installation Costs while eliminating the Exposure of the AC Receptacle and Flex Cable that you normally see beneath the Ceiling Tiles.

The Picture of the Hanging Version Plenum Equipment Box shown spanning the Ceiling Tile Grid Frame provides improved stability for the entire assembly.

In these type of Installations, the Hanging Kit is usually attached to the Ceiling Tile Supports rather than the Hanging Plenum Box itself.

Although commonly called Hanging Plenum Boxes the Mount on the back allows the Box to be screwed to any Flat Surface. Hanging Plenum Boxes that need to be hung require that a Hanging Kit is used.

We recommend the use of The Ceiling Tile Supports when the Hanging Plenum Box is used in a Suspended mode as this will improve the stability of the installation.

All our Plenum Boxes have a "Knock Out" that allows a Projector Pole to be inserted to the underside. The Pole is secured to the underside using the Set of Pole Retaining Nuts that are included with each set of Ceiling Tile Supports.

Hanging Kits

NB-PLHK-5
NB-PHLK-15

Set of Retaining Nuts
