

L7 Series

ADA, HEIGHT-ADJUSTABLE LECTERN

Versatile, height adjustable lectern with an elegant design that flexes to the need of any user

FEATURES:

- Ergonomically engineered to adjust to varying height requirements of its users
- Design complies with ADA, providing ample room for wheelchair access as well as acceptable height minimum
- Durable, steel frames ships assembled allowing the integrator to immediately start the installation in the shop or on-site
- Open frame includes power distribution as well as cable and thermal management for system reliability
- Connectivity included for easy BYOD connecting
 - 4 AVIP plates in popular AV connections
 - Surface power with AC and USB charging as well as wireless charging
- 61" x 31" surface provides adequate workspace and room for all required peripheral devices
- Small device mounting in the frame itself with a pan equipped with Lever Lock™
- Capability to individually replace damaged panels quickly and easily or refinish the entire outer shell to match changing décor without removing equipment
