

Model KOP-L Series

• 10" wide panel with 2 LEDs

Short steel panel with LED lights is made to replace a rear knockout panel in certain Lowell rack series.

Features

- Steel panel with black powder epoxy finish is made to replace a knockout panel above the rear door in Lowell racks.
- Two LED modules with pure white light (total 210 lumens, 6000k) are angled to illuminate rack interior (beam angle 56 x 12 degrees)
- Model Selection:
 - KOP-L-SW:** Panel with LEDs, on/off button switch, and 1A power supply (12VDC output).
 - KOP-L-PSW:** Panel with LEDs, proximity switch (auto on/off when presence is detected), and 1A power supply (12VDC output).
 - KOP-L:** Panel with LEDs is an add-on unit designed to be controlled by a separate panel in the KOP-L series. This unit does not include a switch or power supply.

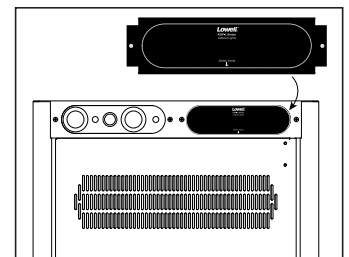

A&E Specifications

The rack shall include Lowell Model _____ (KOP-L-SW, KOP-L-PSW, KOP-L) panel with two bright white LEDs, providing a bright white light with total of 210 lumens. The 10 inch wide steel panel shall have a black powder epoxy finish and replace the knockout panel above the rack's rear door.

The panel shall include a _____ (button switch, proximity switch) and power supply (output 12VDC, 1A).

Model KOP-L-SW rear view shows center button switch.

A KOP-L series panel replaces the rear knockout panel in select racks.

Compatible Rack Series

Series	Description
LER	Enclosed floor rack (adjustable rails)
LFR	Enclosed floor rack (fixed rail)
LHR	Host rack
LGR	Gangable rack (23"W)
LGNR	Gangable rack (22"W)
LGVR	Gangable video rack (22"W)
LSGR	Gangable seismic-certified rack (23"W)
LSER	Enclosed seismic-certified rack (adjustable rails)
LSERF	Enclosed seismic-certified rack (fixed rails)*
LPPR	Portable presentation rack with skirted base
LPR	Portable rack
LWR	Wall rack

*LSERF Model has been discontinued and is available in limited quantities.
