

D 40

Features

- **Dynamic microphone designed for accurate pickup of drums, percussion, brass and woodwind instruments as well as instrument amplifiers**
- **Well-controlled cardioid pickup pattern delivers excellent gain-before-feedback**
- **Patented Laminate Varimotion diaphragm delivers even response at any SPL**
- **Capsule is positioned very close to grille screen for an up-front, detailed sound**
- **One-piece permanently-attached metal stand adapter is angle-adjustable and can't come off**
- **Rugged die-cast chassis with gold-plated XLR-type output connector and ultra-thick dent-resistant grille screen**
- **Includes H 440 clamp that easily attaches to drum rims or mic stands for quick placement**

The AKG D 40 is a dynamic cardioid microphone designed for use on musical instruments, especially drums, percussion, woodwinds and brass as well as for use on instrument amplifiers. The microphone features AKG's Laminate Varimotion diaphragm that maintains even response even at loud levels and allows the true character of the instrument to be accurately captured. The D 40's capsule is positioned close to the grille to enhance transient response and deliver an up-front, beautifully-detailed sound quality.

The D 40 is small, unobtrusive and comes equipped with an integral stand mount with a knurled knob-controlled angle adjustment to make it easy to precisely position the microphone. The integral stand mount also prevents losing or misplacing a mic clip. The D 40 also comes with an AKG H 440 drum clamp that can be easily attached to the rim of a snare or tom without a separate stand. The D 40 has a well-controlled cardioid pickup pattern that delivers maximum gain-before-feedback. The microphone is equipped with an ultra-rugged die-cast chassis with an integral gold-plated 3-pin XLR-type connector. The microphone has a very thick, dent-resistant grille screen. The D 40's small size, detailed sound quality, impressive flexibility and unquestionable value make it a valuable addition to anyone's mic arsenal. The D 40 is backed by a two-year parts and labor warranty from AKG.

AKG SOUNDS BETTER

The D 40 is equipped with a permanently-attached, variable-angle stand adapter and is shipped with an H 440 drum clamp and a carrying bag

D 40

D 40	
Type	Dynamic moving coil
Frequency Response	75 - 20,000 Hz
Sensitivity	4 mV/Pa (-48 dBV)
Max. SPL	144 / 156 dB (for 1% / 3% THD)
Equivalent noise	18 dB-A
Impedance	<=200 ohms
Recommended load	>=1,000 ohms
Output connector	3-pin XLR-type
Finish	Dark stage blue/gray
Dimensions, inches (H x W x D)	4.1 x 3.1 x 1.7 inches
Dimensions, mm (H x W x D)	104 x 79 x 44 mm
Net weight	245 grams / 8.6 oz
Shipping weight	380 grams / 13.4 oz
EAN code	90 02761 02393 0
Order number	2815Z00050
