

K712PRO

REFERENCE STUDIO HEADPHONES

AKG
by HARMAN

For precision listening, mixing and mastering

The K712 PRO premium reference studio headphone with its patented Varimotion™ two-layer diaphragm and revolutionary flat-wire voice coil delivers pristine sound with incredible impulse and treble response.

The genuine leather headband and soft velour ear pads bring maximum comfort during long recording or listening sessions. Its sophisticated technology allows for spacious and airy sound without compromise, the over-ear, open-back design ensures extremely accurate response.

HIGHLIGHTS

- » **3 dB improved low end performance for more powerful sound imaging**
- » **Made in Austria; hand-crafted in Vienna with highest attention to detail**
- » **Pre-selected transducers for performance consistency and accurate localisation**
