

STSDAM+ WL

PROFESSIONAL TABLETOP STAND
FOR WIRELESS USE

FOR FAST AND ELEGANT SETUP

The STS DAM+ is a professional tabletop stand for wireless applications, which is based on a heavy duty table stand. Due to its weight it is very shock absorbing holding the microphone firm in place. Various AKG pocket transmitters fit into the housing, which enables transforming the station into a complete wireless solution. A rugged mute switch (more than 25.000 switching cycles) controls the microphone, an LED bar and the light ring of the microphone to clearly show the status.

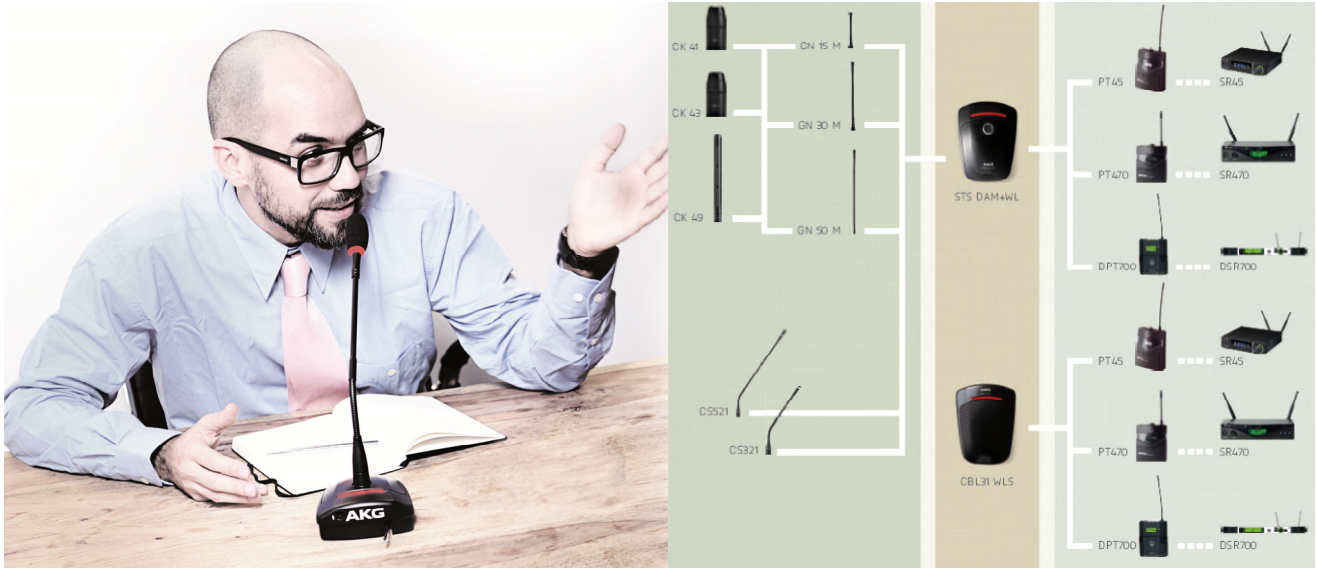

A 3,5 mm input jack plug allows connection of either up to three AKG CBL410 to transmit the audio signal of a presenter to the local PA system.

HIGHLIGHTS

- » **Heavy duty**
firm fit and shock absorbing
- » **Select from AKG WMS40/45/420/470 and DMS800 transmitter options**
enables flexibility for all budgets and needs
- » **Fitting AKG DAM+ Series**
high quality gooseneck and capsule options for all needs
- » **MUTE switch combined with LED bar and LED microphone ring**
clear microphone status for all participants of a meeting
- » **3,5 mm input**
to feed in e.g. a laptop signal for wireless multimedia presentations

APPLICATIONS

- » Meeting rooms
- » Court rooms - Conferencing
- » Houses of worship

KEY SPECIFICATIONS

Product description	Wireless tabletop stand with mute switch
Color	Matte black
Fitting transmitters	PT40/45/420/450/470 and DPT800
Fitting DAM+ modules	GN15/30/50M + CH41/43/49
Fitting gooseneck microphones	CS321/521
Input	3,5 mm stereo jack to cascade up to 3x CBL410
Frequency response	Neutral - depending on wireless system
Run time	Depending on wireless system
System battery (for stand only)	1x AA
Unit dimensions	145 mm (length) x 107 mm (width) x 45 mm (height)
Gross weight	1010 g
Net weight	960 g
Box dimensions	600 mm (length) x 200 mm (width) x 200 mm (height)
Box volume	24000 cm ³
Item number	2966H00030
