

THR-100-COUNTER THR-200-STAND

Max Load
2.64lb (1.2kg)

Temperature Sensor Tabletop and Floor Stand Mounts

FOR 8" TEMPERATURE SENSOR TABLETS

Peerless-AV's lightweight and durable Temperature Sensor Stands are offered for tabletop or floor applications. Both stands offer a plethora of installer friendly features, such as internal cable management and clearance holes in the base to secure the mount to a surface or leave it free-standing for quick reposition. These mounts are designed to support an 8" temperature sensor tablet to immediately deploy in a variety of settings, such as corporate, retail, hospitality, and education. Once the stand is paired with a self-service, non-contact temperature screening tablet, it will alert individuals of heightened temperature status as they enter the premise, alleviating customer and staff concerns.

- Designed and manufactured in the USA
- Internal cable management creates an aesthetically pleasing appearance
- Socket pin security screws keep the tablet secured within the stand
- Base can be free standing or bolted to the floor to increase security
- Adhesive rubber feet under the base plate help stabilize the stand
- High performance, premium powder coat finish protects the stand and extends the lifespan of the product
- Custom aesthetic options available, including custom color finishes and vinyl wraps

Note: Tablet not included
