Table 1 shows the software version history.

Table 1: Software Version History

<i>Version</i>	<i>Release Date</i>	<i>Features</i>
6.6.0.7 Beta	December 2013	Enhancements, new features, added resolution support
6.5.1.15	June 2013	Enhancements, new features
6.0.1.2	September 2012	Enhancements, new features
5.5.1.5	April 2011	Corrected issues

About RealPresence Media Editor 6.6 Software

RealPresence Media Editor software enables you to create professional, feature-rich, online multimedia presentations in four simple steps. The RealPresence Media Editor user interface guides you through selecting a presentation skin, syncing presentation slides, images, and other resources, previewing, and publishing your presentation locally or to your website.

RealPresence Media Editor software can import RealPresence Capture Station presentations and integrates with RealPresence Media Manager software using the new Media Manager Wizard.

New Features in RealPresence Media Editor 6.6 Software

RealPresence Media Editor 6.6 software includes the following new features:

- New resolution and framerate options in the Capture Live window

- Support for standard and widescreen resolutions for output videos
- Automatic generation of standard or widescreen mobile output for video based on the input source
- New Media Manager Wizard to enable integration of RealPresence Media Editor software with RealPresence Media Manager software, including automatically publishing presentations to RealPresence Media Manager content and streaming servers, and scanning into RealPresence Media Manager content library and available on portals
- The RealPresence Media Manager Player skin is now available in RealPresence Media Editor software
- Using the new Media Manager Player skin, you can generate standard or widescreen slides independent of the input media source resolution
- Support for editing .MOV files
- Support for 16:9 and 4:3 image slides when using the Media Manager Wizard
- .jpeg-only thumbnails for compatibility with RealPresence Media Manager software

Upgrading to RealPresence Media Editor 6.6 Software

Contact your authorized Polycom Support representative to determine your eligibility and obtain the necessary software product license keys before starting the upgrade procedure.

Note: Microsoft Expression Encoder 4 Pro is required

You need to install **Microsoft Expression Encoder 4 Pro** before installing RealPresence Media Editor software.

Step 1: Uninstall Previous Versions of RealPresence Media Editor software

The first step is to uninstall the old version of RealPresence Media Editor software.

To uninstall a previous version of RealPresence Capture Station software:

- In the **Windows Control Panel**, in **Programs and Features**, select **Polycom RealPresence Media Editor** and click **Uninstall**.

Step 2: Install RealPresence Media Editor 6.6 Software

Once the previous version is uninstalled, you can unzip and install the RealPresence Media Editor 6.6 software.

To install RealPresence Capture Station 6.5 software:

- 1 Right-click the **PRME_v6.6.0.7** zip icon, select **Open with...**, and then click **Windows Explorer**.
- 2 Click **Extract All**. Browse to a folder and click **Unzip**.

- 3 Right-click **PRME_v6.6.0.7.exe** and select **Run as Administrator**.
- 4 In the RealPresence Media Editor InstallShield Wizard, read the warning, and click the **Next** button.
- 5 Read the End User License Agreement (EULA), select **I accept the terms in the license agreement**, and click the **Next** button.
- 6 Complete the remaining steps in the RealPresence Media Editor InstallShield Wizard and click the **Install** button.

Interoperability with RealPresence Media Manager Software

The following table shows the tested interoperability between versions of RealPresence Media Editor and RealPresence Media Manager software.

Table 2: Interoperability with RealPresence Media Manager Software Versions

<i>Software Version</i>	<i>RealPresence Media Manager 6.5.1.13</i>	<i>RealPresence Media Manager 6.5.2.5</i>	<i>RealPresence Media Manager 6.6.0.x</i>
<i>RealPresence Media Editor 6.5.1.5</i>	Tested	Tested	Tested
<i>RealPresence Media Editor 6.6.0.x</i>	Failed	Failed	Tested

Testing included the following tests:

- PRME Wizard configuration to PRMM (only PRME6.6x and higher)
- Importing PRME presentations
- Publishing events using PRMM Default Profiles (built-in MSA)
- Publishing events using PRMM non-default Profiles (external MSA)
- Publishing using IIS streaming
- Publishing using WMS streaming
- Publishing using Wowza streaming

Resolved Issues
